Through The Chairman,
Municipal Council, Bellary.

No. 4757/38, dated 4.7.1938.

Sir,

Ref:- Adoption of P.W.D.Memorandum No.4079-E/36-2 dated 4th December 1936 - Adoption by Council Waiving of agreement - Suitable modification of form of agreement in Conditions of Supply of Bellary Municipal Electric License.

The Electrical Standing Committee in its Resolution No.8 dated 29-1-1938 - Proceedings of which have been approved of in Council's Resolution No.3 (3) dated 26-2-38 - have adopted P.W.D.Memorandum No.4079/E-36 dated 4th December 1936 and have resolved to waive the execution of agreements from the consumers. The Standing Committee in the same Resolution approved the modified form of requisition for the supply of energy required from the consumers according to the 1st Proviso (a) to Clause VI (1) of the Schedule to the Indian Electricity Act of 1910. I request the sanction of the Government for its approval and adoption.

A copy of the Resolution No.8 dated 29-1-1938 is herewith enclosed.

THE BELLARY MUNICIPAL ELECTRICAL WORKS.

Application for the supply of Electrical Energy.

To

The Commissioner,
Bellary Municipality,
Bellary.

Sir,

I hereby require in accordance with clause VI of the Schedule to the Indian Electricity Act 1910, within one month -- from the date of this requisition (Permanent / Temporary) supply (or extension) of electrical energy for premises _____ at

occupied / owned by _____ being within the "area of supply" specified in the Bellary Electric Licence 1921 as (amended)

1. "I wish to take a supply of Electric energy at the current rates mentioned in Part II of your Booklet and I agree -- to deposit such amount as may be demanded as security".

2. I bind myself to take a supply of energy for a -- minimum period of two years.

3. If at the end of twelve calender months from the date of commencement of supply and at the end of each subsequent period of twelve calender months, the registered consumption of energy shall fall short of the value of Rs. I shall pay the -- Licensee the difference between the registered consumption and -- the guaranteed minimum consumption as per the rate per Board of -- Trade Units applicable, provided also that in the event of no minimum consumption being guaranteed, then should the value of -- energy consumed be less than the amount (if any) specified in the licence, then I shall beind myself to pay to the Municipality sum equivalent to the minimum sum so specified.

(4) copy of the form as amended

N o t e.

Subject No.4

1. Under Para 2, Sub-para 7, the words "subject to 7 days -- time being allowed from the date of receipt of application" should be added.

2. In the Form of Requisition for Electric Supply suggested -- by Government, the work "one" is to be changed to "two" in the -- sentence "I agree to take a supply for one year" since the --- condition of services in Bellary is such that a reasonable return on the Capital Outlay invested by the Municipality for service -- charges cannot be aniticipated within the period of one year.

3. The para 3 mentioned in the original form of application sent to Government should perforce be added in the Requisition -- Form after the sentence "I agree to take....." as a separate para, since in the absence of the agreement that para is the only authority on which we could claim the minimum guaranteed consumption and expect the reasonable return. For example:- A party applied for a connection, say 6 months subsequent to supply of energy, he applied for disconnection. We disconnect according to sub-para -- 7 of para 2 of Memorandum No.2296 E/38-3 dated 9-9-38 under --- reference He does not apply for reconnection at all. The -- only authority on which we could claim the guaranteed minimum consumption for 2 years - subject to the condition that he has -- not consumed the 2 years minimum within this 6 months period - is - para 3 i.e., Clause 9 of the original agreement - Appendix E. to I.E.Act 1910. Hence, the necessity for addition.

4. After the words "may allow" in para 1 add the words - "permanently/temporarily". This is necessary in view of the -- fact that the same form can be used for both permanent and --- temporary connections by striking off the sentence "I agree to -- take a supply for 2 years" and the subsequent para requested to - be included in the case of temporary connections.

Form of Requisition for Electric Supply.

To

Municipal Council, Bellary.

Sir,

I herewith require you in accordance with Clause VI of the Schedule to the Indian Electricity Act, 1910, within one month -- from the date of this requisition or within such longer period as the Electrical Inspector may allow permanently/temporarily, to supply electrical energy to the premises, ---------- owned (occupied) by me being within the area of supply specified -- in the Bellary Electric Licence 1921

* I agree to pay for the said energy, service connection and -- other dues, including the deposit of such security as may be demanded in accordance with the scale of rates and the rules of the licence.

I wish to be charged under Clause of Part II of the tariff.

I agree to take a supply for two years.

If at the end of twelve calender months from the date of -- commencement of supply and at the end of each subsequent period of -- twelve calender months, the registered consumption of energy shall -- fall short of the value of Rs. I shall pay the Licencee the -- difference between the registered consumption and the guaranteed --- minimum consumption as per the rate per Board of Trade Units applicable provided also that in the event of no minimum consumption being --- guaranteed, then should the value of energy consumed be less than -- the amount (if any) specified in the licencee, then I shall bind --- myself to pay to the Municipality a sum equivalent to the minimum sum so specified.

The following are my requirements.

Memo. No. 2296 E/38-6 dt 6.3.39

Bellary Electric licence - booklet of conditions, rates etc. amendments - Letter from the Commr., Bellary Municipality No E. 766/38 dt 14-10-38 & No E. 766/38 dt 14.11.38

The modifications proposed in the note of the Asst. Electrical Engineer call for the following remarks:

(1) modification to note 7 proposed in para 1(a) of Memo No. 2296 E/38-3 dt 9.9.38.- It is observed that the modification proposed is to give time to the licensee to disconnect supply on application. It is not likely that by its introduction consumption of energy by parties from the date of their application can be avoided. The modification is considered to be unnecessary.

(2) modifications to the form of requisition proposed in

- p5 cf

para 1(4) of Memo No. 2296 E/38-3 dt 9.9.38.-

(a) Modification to para (1) - Most of the conditions incorporated in the form of requisition do not apply to temporary services. The licensee may utilize the correspondence with the applicant for purposes of record. The amendment proposed is unnecessary. vide p3 cf.

item 4 on p8 cf

vide para 3 of C.E's memo on p 8 cf.

(b). Modification to para 3. There is no objection to the council specifying a two years' period. The word "one" occurring in the para will be deleted and a space left blank between the words "supply for" and "year" for specifying the period which the Mul. council may fix.

(c). Introduction of a new para after para 3 - The declaration to take supply of power for the period which may be specified in para 3 seems to be sufficient guarantee for

the Dist. council has full discretion as with whom agreements shall be necessary. The amendment proposed is not therefore necessary.

The Dist council advised to adopt the form of requisition ~~appended~~ enclosed) which has been approved by Govt. and embodies the model ~~form~~ forms of conditions etc appended to Govt. No 514 dt 14.3.38.

2. The Commr., Bellary municipality is requested to state whether the Dist. council agrees any objections to the amendments proposed in Memo 296 E/38.3 dt 9.9.38 and accepts the revised form of requisition enclosed.

The Electrical Inspector's remarks, with which I agree, are extracted below:-

"The proposal of the Licensee to dispense "with the agreement form may be approved subject "to the condition that the Municipal Council agrees "to the following amendments to the booklet of "conditions and rates:-

"Part I.- Between clauses 4 and 5 a "clause 4-A as below may be incorporated.-

"4-A. "Payment for service lines.- The consumer "is entitled to the first 100 feet of "service line on public roads from the "distributing mains free of cost; he will "be required to pay for all the service "line laid on private property and for "that length on public roads beyond the "100 feet free length.

"Service lines for bonafide agricultura "purposes will be laid free provided "a supply of energy is taken under L.T.

"tariff for agricultural purposes and the cost
"of the service line ~~is not greater than~~ Rs.60/-
"per horse-power of connected load.

Part II.- The following may be incorporate
as notes under this part.-

"Note (1) "All bills not paid within 30 days of
"the date of issue of the bill (i.e.
"from the sealed date on bill) will
"be subject to a surcharge of one
"per cent per month. The surcharge will
"be levied on overdue bills to the
"nearest anna subject to a minimum of
"one anna. Consumers are also liable
"to have the electrical supply discontin
"after being given 7 days notice if the
"bills are over due for more than 30 day
"A rebate of 2 per cent will be allowed
"on bills paid at the Municipal Office
"within 30 days from the date of ~~xxx~~
"issue of the bills.

(2) "The standard tariffs are applicable onl
"in cases where the installation is loca
"reasonably near the power lines and
"feeders.

(3) "Unless otherwise agreed to, all rates
"for power apply to one point of supply
"only.

(4) "If the monthly consumption of electrici
"by any consumer is such as could benefi
"by the next higher step in the tariff,
"the benefit accruing by charging for the
"minimum of that next step will be allowe
"It is, however, expected that the consu
"will be increased in such a manner as t
"ensure that it will always be in a more
"favourable block.

(5) "Interest at 3% per annum will be paid
"annually on all sums deposited as securi

(6) "On the conversion of a flat rate to a
"metered service, the consumer shall be
"charged only the depreciated cost of
"materials, depreciation being reckoned
"at 5% per annum.

29.X

3/11

Relating [illegible] a copy of the form as modified is on pp 11-12 C.F.

Lr. No. 2296E/38-4

With reference to para 1 of the Municipal Elec. Engineer's note the Commissioner was asked to elucidate the point and his reply No.E.766/38 dated 14.11.38 is enclosed. The Municipal Elec.Engr. has evidently not understood the intention and significance of Note 7. For terminating the contract for power supply after the expiry of the period of contract, one month's notice should be given by the consumer under para 13 of Part I read with clause 9 of the Form of agreement appended to the booklet. As the provision for notice of termination is contain no amendment to note 7 under Part II is necessary.

2 Paras 2 & 3. Agreements may be dispensed with case of domestic consumers. The council has full discretion as with whom agreements shall be necessary; the council has also full powers to demand but in special cases only a minimum period of two years and also a guaranteed return. The amendments sugges are therefore not recommended.

3 Para 4. Most of the conditions incorporated in the form of requisition do not apply to temporary services. The licensee may utilise the correspondence with the applicant for purposes of record.

Sub:-Revision of Rates.

Ref:-Your No.13474 dated 11-11-1938.

The clause referred to by the Electrical Engineer relates to the proportionate charges being levied in the case of reconnection and disconnection charges. The addendum proposed is to avoid the consumption of the parties in the calculation of the proportionate charges from the date of their application for disconnection. To be more specific the words "subject to 7 days time being allowed from the date of receipt of application for disconnection" may be taken as the addendum. So, the final amendment would read as follows:-

> "For the first month of service connection or for the month of disconnection and/or reconnection of a service, monthly minimum charge proportionate to the number of days for which power is supplied or the actual consumption charge whichever is greater will be collected "subject to 7 days time being allowed from the date of receipt of application for disconnection."

I hope that the proposed addendum is now clear and specific in cases of parties applying for disconnections, to avoid contentions.

Please see the remarks of the C.E for Electricity on p 8 ante. The modifications proposed in the Jnl. Electrical Engineer's note are noted on below:-

p 8 CF

(1) Modification to note 7 in para 1(2) of memo No 2296E/38-3 dy 9.9.38 - item 1 on p 8 CF

p 9 NF

It is explained that the modification proposed is to avoid, in the calculation of the proportionate charges, the consumption of energy by consumers from the date of their application for disconnection. It is not clear how the amendment proposed will serve the purpose in view. There is already sufficient provision in the I.E Act and in the booklet of conditions, rates etc for notice of disconnection by licensees for default or breach on the part of the consumers in the observance of the conditions under which supply is made. ~~on the part of the consumers.~~ In cases where the consumers apply for disconnection the licensee should take steps to disconnect supply as early as possible in his own interests. The amendment does not appear to be necessary.

2) Modification to para 4 of the revised form of requisition proposed in para 1(4) of Memo No 2296E/38-3 dy 9.9.38 - item 2

on p. 8 C.E. :- The C.E. has stated that the Council has full powers to demand but in special cases only a minimum period of two years" and also a guaranteed return In the revised form of requisition approved by Govt. Vide pp. 7-8 of Go. No. 514 Secy dy 14-3-38 , the number of years for which the consumer shall agree to take supply is not specified. It is seen that in the revised form of requisition proposed to the Bellary Mnl. Council for adoption the number of years for which the consumer shall agree to take supply may not be specified and by deleting the word "one" in the para and leaving a blank space between the words "supply for" an "year" so that the Mnl. Council may specify the period at its discretion

para 3 on p. 8 ante

Vide also sections clause VI of the D(A)

(P)

para 4 on p. 8 of (P)

pp 3 & 4 ante

(3) Introduction of a new para to the revised form of requisition proposed - The declaration to take a supply for the period (as may be specified) by it seems to give a claim to the licensee. The Co has also full discretion as to with whom agreements shall b amendment" does not seem necessary.

(4) : modification to para 1 of the revised form of requisition - This modification is not necessary for the reasons given in para 3 of the C.E's note on p 8 ante

32

2. The Mnl. council may be requested to adopt the revised form of requisition since approved by Govt. vide Go. No. 514 (P) Dev dy 14.3.38.

3. A draft memo to the Comm Bellary Municipality is submitted for approval. L. Admn. may see before issue

Order / ~~Resolution~~ Ms. / ~~Rout.~~ No. 2164 dated 26-8-1939.

(1) in booklet file

The following amendments to the booklet of conditions, rates etc for the supply of electrical energy under the Bellary Electric licence are approved:-

1) Part I - Conditions of supply -

Insert the following as condition 4A

" 4-A. Payment for service lines -

The Consumer is entitled to the first 100 feet of service line on public roads from the distributing mains free of cost; he will be required to pay for all the service lines laid on private property and for that length on public roads

regard the 100 feet free length.

Service lines for bona fide agricultural purposes will be la free provided a supply of energy is taken under the L.T. tariff fo agricultural purposes and the cost of the service line does not exceed Rs 60 per h.p of connected load."

(2). Part II Rates at which supply will be charged

Insert the following as notes 2) to (7) at the end of the Part I the existing note at the end of the Part which was approved in Govt. No 11171 Dy dy 8-5-39 being numbered as note (1

"(2). The standard tariffs are appli only in cases where the installation is located reasonably near the power lines and feeders.

(3). Unless otherwise agreed to, all rates for power apply to one poin of supply only.

(4). If the monthly consumption of electricity by any consumer is such as could benefit by the next higher step in the tariff the benefit accruing by charging

Vide para 1(2) of Item No 4-5 CF & the notes on p. 2 ante.

(7)

for the minimum of that next step will be allowed. It is, however expected that the consumption will be increased in such a manner as ensure that it will always be a more favourable block.

(5). Interest at 3 per cent per annum will be paid annually on all sums deposited as security

(6) On the conversion of a flat rate to a metered service, the consumer shall be charged only the depreciated cost of materials, depreciation being reckoned at 5 per cent per annum.

(7). For the first month of service connection or for the month of disconnection and/or reconnection of service, monthly minimum charge proportionate to the number of days for which power is supplied or the actual consumption charge whichever is greater will be collected."

3. Appendix. D -

For the existing form of requisition substitute the following :-

[Here insert the form of requisition for supply of L.T. energy M. M. 14-17 CF]

2. The Commissioner Ballantyne Municipality is requested to issue corrections ~~slips~~ to the booklet to furnish four copies to Govt - ~~each of the printed corrected slips~~ as soon possible
